# IMMUN - AE

## COMPOSITION:

Serving Size: 1 Drop  
Servings Per Container: 1200 drops  
Amount Per Serving  
Vitamin A (retinol Palmitate) 15000 iu  
Vitamin E (di-alpha tocopheryl acetate) 10 IU

## DESCRIPTION:

Combination of nature's most powerful antioxidant vitamins in highly bioavailable liquid. Just one drop of Immun AE (vitamin A + Vitamin E) Emulsion Liquid drops delivers 15000 iu of vitamin A (retinol Palimate) and 10 IU of Vitamin E (di-alpha tocopheryl acetate). Synergistic formula offers protection against free radicals to boost immunity and support overall health along with anti-inflammatory abilities. Both of these vitamins work together to improve overall activity and body functions- creating a concentrated immunity formula that offers a variety other benefit.

## VITAMIN A

Used in the body for proper cellular growth, Immun E (Vitamin A + E) Emulsion Liquid Drops help maintain good vision and healthy eyesight, healthy skin, hair and nails and promote gastrointestinal health.

## VITAMIN E

This antioxidant vitamin supports cardiovascular function and a healthy heart. Immun AE (Vitamin A + E) Emulsion Liquid Drops helps maintain strong, healthy nails and offers protection from compounds called free radicals that can damage healthy cells. Since Vitamin E is not stored in the body, it must be taken in through diet regularly to help deficiency.

## INDICATIONS:

Vitamin A and E work together to increase antioxidant capabilities and support a healthier gut keeps skin glowing. Helps fight acne and improves fine lines and wrinkles.

**Relieves Inflammation:** a powerful antioxidant that helps block inflammation.

**Reduce cholesterol:** May help naturally lower cholesterol levels to optimize heart health.

**Supports immunity:** May help ward of illness and infections.

**Eye Health:** Boosts vision and keep eyes healthy.

**Reproduction and development:** Vitamin A plays a part in proper growth and development throughout all stages of life.

**Tissue repair:** Promotes proper skin health and may aid in wound healing as well.

## DRUG-DRUG INTERACTIONS:

1 drop unless otherwise directed by a physician.

The emulsifier in the formula keeps both vitamins A and E dispersed, which increases the uptake of both nutrients due to its increased bioavailability

## CONTRAINDICATIONS:

No absolute contraindication.

Drug-drug Interactions

For many body processes to function optimally you must have the right balance of nutrients. For instance, Vitamin C interacts with Vitamin A to protect it from oxidation and preventing its molecule from forming into a free radical.

## OVER DOSAGE:

Free radicals are unstable molecules that damage or 'oxidize' cells throughout the body in a process called oxidative stress. Over time, oxidative stress can leave our cells and tissues unable to perform properly.

## STORAGE GUIDELINES:

Protect from light and excessive heat.  
store in a cool and dry place below 30 C  
keep out of reach of children

## PRESENTATION:

Immune AE (vitamin A + E) Emulsion liquid drops is available in bottle pack of 60 ML.
